PHYSICIAN DISCLOSURE STATEMENT

Cumberland County physicians developed and opened Fayetteville Ambulatory Surgery Center in 1982 after receiving a certificate of need from the North Carolina Department of Human Resources. The facility was developed in order to provide a more efficient and cost-effective option for area physicians and their patients requiring outpatient surgery.

Fayetteville Ambulatory Surgery Center is accredited by The Joint Commission, a national health care facility accrediting organization. The facility is fully licensed and is Medicare/Medicaid certified. Fayetteville Ambulatory Surgery Center’s admission policies ensure access to its services by all patients including those covered by Medicare and Medicaid and those without health insurance coverage.

The following physicians proudly participate in the ownership of the Fayetteville Ambulatory Surgery Center:
