Welcome to Valley Ambulatory Surgery Center!

We are very pleased that you and your physician have chosen us to care for you. We have assembled this surgery packet to make your experience as convenient and comfortable as possible.

Valley Ambulatory Surgery Center combines experience with a technologically advanced facility. We offer a safe, convenient, high-quality alternative to inpatient hospitalization. Our warm, comfortable outpatient setting enables you to return home on the same day to recuperate in familiar surroundings.

Valley Ambulatory Surgery Center is fully licensed and certified by the State of Illinois, the Medicare and Medicaid programs and accredited by the Accreditation Association for Ambulatory Health Care. Our surgeons perform a broad range of outpatient and short stay surgical procedures from specialties which include Dental, Genitourinary, General Surgery, Gynecology, Ophthalmology, Orthopedics, Otolaryngology and Reconstructive Surgery to name a few.

Please read the following pages thoroughly and follow all instructions given to help us give you the best possible experience in outpatient surgery.

Yours sincerely,

Lauren Blanchard
Administrator
Valley Ambulatory Surgery Center
FAQ FOR YOUR PROCEDURE:

Why do I need to arrive so early for my procedure?

➢ Arriving ahead of your scheduled procedure allows time for admitting and pre-operative preparation.

How is the Surgical Center different from a Hospital?

➢ Because a hospital must be staffed and equipped to treat all types of medical problems, it provides a much broader range of services than your current needs require. Since the surgery center is designed exclusively for short stay surgery, we are able to offer patients a convenient, comfortable and less costly alternative to the hospital.

➢ The Surgery Center’s warm surroundings, pleasant atmosphere and the increased level of individual attention from our staff minimizes the stress often associated with surgery. Our center specializes in short stay surgery and our staff specializes in short stay care.

How is the Surgical Center similar to a Hospital?

➢ Your surgeon is supported by a highly skilled team of registered nurses and surgical technicians specially trained in surgical and recovery care.

➢ Our surgical suites and sophisticated equipment are like those of a large hospital.

➢ If your procedure requires anesthesia, Board Certified Anesthesiologists will be involved in your care and will be visiting with you on admittance to answer any of your anesthesia related questions.

What Should I expect when I arrive at the Surgery Center?

➢ Upon arriving at the Surgery Center you will be asked to sign admittance and consent forms before proceeding to the pre-operative area. If the patient is a minor or if the patient is an adult with a legal guardian, these forms must be signed by a parent or legal guardian.

➢ Guardians must also bring written proof of guardianship (e.g. healthcare power of attorney, healthcare proxy) on the day of surgery. Without this documentation, surgery may be delayed or cancelled.
